PROFESSIONAL SUMMARY

Technical Product Builder specializing in agent orchestration, CLI for LLM agents, and multimodal AI deployment. Hands-on builder across structured text and JSON data representations for coding agents (Antigravity, Opencode, Claude Code), LangGraph workflows, and Unity animation state machines for interactive virtual humans on local GPU environments.

CORE COMPETENCIES

Agent & AI Architectures: CLI for LLM Agents, LangGraph, DeepSeek Harness, Structured JSON Schemas, Multimodal AI Pipelines, Coding Agents (Antigravity, Opencode, Claude Code), RAG

Technical Stack & Systems: Python, C#, Unity3D, RESTful APIs, Git, Local GPU Inference (24GB VRAM), Audio DSP

Product & Delivery: 0-to-1 Roadmapping, Frontline Behavioral Research, SOP Architecture, Systems Integration, Production System Deployment

WORK EXPERIENCE

MRKE Ltd. | Co-Founder & Product Manager | 2020 – 2026 (Hong Kong)

- Spearheaded in-store tablet rollout and pivoted roadmap via frontline observation, embedding 60fps previews into stylist SOPs to cut consultation time by 35%.
- Conducted on-site behavioral research across 50+ salon sessions, identifying customer consultation anxiety with 2D photos and reprioritizing 3D asset delivery to boost family customer retention.

National Tainan University of the Arts | Multimodal AI Systems Integration Engineer | 2024 – 2025 (Tainan, Taiwan)

- Integrated distributed multimodal AI pipeline across Whisper ASR, Llama 3 with RAGFlow, and Fish-Speech TTS on a local 24GB VRAM GPU environment.
- Architected Unity animation state machine transitions with reflective visual buffering cues to bridge LLM inference latency, achieving 0% drop-off rate during public VIP showcases.

Innova Medical Technology | UX Product Intern | 2024 (Kaohsiung, Taiwan)

- Diagnosed and resolved audiovisual desync between LLM dialogue responses and 3D virtual patient animations across 50 clinical cases, aligning symptom schemas to eliminate diagnostic errors.

Luxury Hospitality Groups (Kerry Hotel & Marriott) | Operations & VIP Experience Specialist | 2017 – 2021 (Hong Kong)

- Delivered 0-to-1 front office service SOPs and high-stakes VIP crisis resolution, applying operational rigor and user friction empathy to software delivery.

FEATURED PROJECTS

Stratawright Agentic DAW | [Creator & Developer](#) | 2026

- Developed open-source audio workstation architecture translating multitrack telemetry into structured JSON schemas, enabling coding agents (Antigravity, Opencode, Claude Code) to automate 100+ track mixing and DSP control via CLI.

ACADEMIC RESEARCH & PUBLICATIONS

IEEE ICVR 2026 International Research Publication | [First Author](#) | 2026

- Quantified cognitive experiment under audiovisual conflict in 16-channel Third-Order Ambisonics, establishing cross-modal spatial computing design principles.

EDUCATION

National Tainan University of the Arts — Bachelor of Arts in Audio Engineering (2022 – 2026)

Plymouth University — Bachelor of Arts (Honours) in Tourism Management (2013 – 2016)
